Material Safety Data Sheet for EATON Filter Cartridges

Dear Sirs,

EATON Technologies GmbH as a producer of filtration equipment is not a supplier of dangerous chemicals or preparations according to Article 31 "Requirements for Safety Data Sheet" of the REACH regulation (EC No. 1907/2006) and GHS regulation (EC No. 1272/2008).

We are not obliged to provide materials safety data sheets for those products since they do not contain any substances that may be considered dangerous for human health and/or the environment.

If dangerous substances are applied in EATON products we certainly provide our customers with the obligatory materials safety data sheets.

In case of any further questions, please do not hesitate to contact us.

This document relates only to the identified Eaton products and is based on information available as of the date hereof. This document does not contain a complete statement of warranty or guaranty with regard to a product's characteristics, uses, suitability, safety, efficiency, hazards or health effects. Additional information may be needed to evaluate the uses of the products, including the use of the products in combination with any materials or in any processes or because of applicable laws or government regulations. The end-users of the products are responsible for determining that the product is suitable for the intended use and that their personnel and the general public are advised of any risks resulting from such use.

Best regards

Hans Peter Discher
